INDIAN ECONOMIC DEVELOPMENT
TEXTBOOK FOR CLASS XI

NATIONAL COUNCIL OF EDUCATIONAL RESEARCH AND TRAINING

2015-16(20/01/2015)
FOREWORD

The National Curriculum Framework (NCF) 2005, recommends that children’s life at school must be linked to their life outside the school. This principle marks a departure from the legacy of bookish learning which continues to shape our system and causes a gap between the school, home and community. The syllabi and textbooks developed on the basis of NCF signify an attempt to implement this basic idea. They also attempt to discourage rote learning and the maintenance of sharp boundaries between different subject areas. We hope these measures will take us significantly further in the direction of a child-centred system of education outlined in the National Policy on Education (1986).

The success of this effort depends on the steps that school principals and teachers will take to encourage children to reflect on their own learning and to pursue imaginative activities and questions. We must recognise that, given space, time and freedom, children generate new knowledge by engaging with the information passed on to them by adults. Treating the prescribed textbook as the sole basis of examination is one of the key reasons why other resources and sites of learning are ignored. Inculcating creativity and initiative is possible if we perceive and treat children as participants in learning, not as receivers of a fixed body of knowledge.

These aims imply considerable change in school routines and mode of functioning. Flexibility in the daily time-table is as necessary as rigour in implementing the annual calendar so that the required number of teaching days are actually devoted to teaching. The methods used for teaching and evaluation will also determine how effective this textbook proves for making children’s life at school a happy experience, rather than a source of stress or boredom. Syllabus designers have tried to address the problem of curricular burden by restructuring and reorienting knowledge at different stages with greater consideration for child psychology and the time available for teaching. The textbook attempts to enhance this endeavour by giving higher priority and space to opportunities for contemplation and wondering, discussion in small groups, and activities requiring hands-on experience.
The National Council of Educational Research and Training (NCERT) appreciates the hard work done by the textbook development committee responsible for this book. We wish to thank the Chairperson of the advisory group in Social Sciences, Professor Hari Vasudevan and the Chief Advisor for this book, Professor Tapas Majumdar for guiding the work of this committee. Several teachers contributed to the development of this textbook; we are grateful to their principals for making this possible. We are indebted to the institutions and organisations which have generously permitted us to draw upon their resources, material and personnel. We are especially grateful to the members of the National Monitoring Committee, appointed by the Department of Secondary and Higher Education, Ministry of Human Resource Development under the Chairpersonship of Professor Mrinal Miri and Professor G.P. Deshpande, for their valuable time and contribution. As an organisation committed to systemic reform and continuous improvement in the quality of its products, NCERT welcomes comments and suggestions which will enable us to undertake further revision and refinement.

New Delhi

National Council of Educational Research and Training
TEXTBOOK DEVELOPMENT COMMITTEE

CHAIRPERSON, ADVISORY COMMITTEE FOR TEXTBOOKS IN SOCIAL SCIENCES AT HIGHER SECONDARY LEVEL

Hari Vasudevan, Professor, Department of History, University of Calcutta, Kolkata

CHIEF ADVISOR

Tapas Majumdar, Emeritus Professor, Jawaharlal Nehru University, New Delhi

MEMBERS

Bharat C. Thakur, PGT, Government Pratibha Vikas Vidyalaya, Surajmal Vihar, Delhi
Gopinath Perumula, Lecturer, Tata Institute of Social Sciences, Mumbai
Jaya Singh, Lecturer, DESS, NCERT, New Delhi
Nishit Ranjan Das, PGT, New Alipore Multipurpose School, Behala, Kolkata
Naushad Ali Azad, Professor, Department of Economics, Jamia Milia Islamia, New Delhi
Neeraja Rashmi, Reader, DESS, NCERT, New Delhi
Rama Gopal, Professor, Department of Economics, Annamalai University, Annamalai Nagar, Tamil Nadu
Pratima Kumari, Lecturer, DERPP, NCERT, New Delhi
Poonam Bakshi, Senior Lecturer, Department of Economics, Punjab University, Chandigarh
R. Srinivasan, S.G. Lecturer, Department of Economics, Arignar Anna Government Arts College, Villupuram, Tamil Nadu
Sabitha Patnaik, PGT, Demonstration School, Regional Institute of Education, Sachivalaya Marg, Bhubaneswar
Sharmista Banerjee, Headmistress, Bidya Bharti Girls High School, Kolkata

MEMBER–COORDINATOR

M.V. Srinivasan, Lecturer, DESS, NCERT, New Delhi
Many friends and colleagues have helped in preparing this textbook. The National Council of Educational Research and Training acknowledges M. Karpagam, Lecturer, Department of Economics, Meenakshi College, Chennai; J. John, Director, Centre for Education and Communication, New Delhi; Pratyusa K. Mandal, Reader, DESS, NCERT, New Delhi; Nandana Reddy, Director (Development), Concern for Working Children, Bangalore; V. Selvam, Research Scholar, Centre for Study of Regional Development and Satish Jain, Professor, Centre for Economic Studies and Planning, Jawaharlal Nehru University, New Delhi; Pooja Kapoor, Modern School, Barakhamba Road, New Delhi; Priya Vaidya, Sardar Patel Vidyalaya, Lodhi Estate, New Delhi; and Nalini Padmanabhan, DTEA Senior Secondary School, Janakpuri, New Delhi for providing their feedback and inputs.

The Council expresses its gratitude to Jan Breman and Parthiv Shah for using photographs from their book, Working in the mill no more, published by Oxford University Press, Delhi. Some stories were taken from the book, Everybody Loves a Good Drought, authored by P. Sainath and published by Penguin Books, New Delhi. A photo relating to farmers committing suicides has been used from The Hindu. A few photographs and text materials on environmental issues have been used from the State of India’s Environment 1 and 2 published by the Centre for Science and Environment, New Delhi. The Council thanks the authors, copyright holders and publishers of these reference materials. The Council also acknowledges the Press Information Bureau, Ministry of Information and Broadcasting, New Delhi; National Rail Museum, New Delhi for allowing to use photographs available in their photo library. Some photographs were given by S. Thirumal Murugan, Principal, Adhiyaman Matriculation School, Uthangarai, Tamil Nadu; John Suresh Kumar, Syndical Board of Social Service; Sindhu Menon of Labour File, New Delhi; R. C. Das of CIET, New Delhi; Renuka of National Institute of Health and Family Welfare, New Delhi. The Council acknowledges their contribution as well.

Special thanks are due to Savita Sinha, Professor and Head, Department of Education in Social Sciences and Humanities for her support.

The Council also gratefully acknowledges the contributions of Mamta and Arvind Sharma, DTP Operators; Neena Chandra, Copy Editor; Dillip Kumar Agasti, Proof Reader; and Dinesh Kumar, Incharge Computer Station in shaping this book. The efforts of the Publication Department, NCERT are also duly acknowledged.
HOW TO USE THIS BOOK

The main objective of this book, *Indian Economic Development*, is to expose the learners to some of the key issues facing the Indian economy. In this process, as young adults, they are expected to be sensitised about these issues, appreciate and learn to critically assess the role of the government in various economic spheres. The book also provides opportunities for knowing what economic resources are and how these resources are being utilised in different sectors. The learners are also exposed to numerical information relating to various aspects of Indian economy and India’s economic policies. They are expected to develop analytical skills, interpret the economic events and visualise the economic future of India. Nevertheless, conscious effort has been made not to burden the learner with concepts and data.

With regard to various economic issues and trends, this book attempts to bring out alternative views on every issue so that students can engage themselves in well-informed debates. On completion of the course, *Indian Economic Development*, the learners are expected to acquire skills to understand macroeconomic events which occur around them, and to critically evaluate and interpret the relevant information provided by the media.

This course comprises of many activities with each chapter. The students have to carry out such activities under the guidance of their teachers. In fact, the role of the teacher in enriching the understanding of the Indian economy is greater in this course. The activities include classroom discussions, collecting information from government documents such as Economic Survey, archival materials, from newspapers, television and others sources. Learners should also be encouraged to read the works of scholars on various topics.

For all this to happen, the teachers have to initiate the process by taking some steps before starting the course. At the beginning of the academic year, students may be asked to collect clippings from newspapers and magazines relating to different topics under the course — five year plans; allocation of funds to various sectors like agriculture, industry, services and for specific causes such as poverty and employment; key issues of rural development, environment, various
infrastructures, health, education and energy; and economic events in China and Pakistan. They have to maintain these clippings, and when the teacher starts teaching a particular topic, they can cull out those news items, which they have collected from the beginning of the course, and display/use them in the classroom. It is necessary for learners to build this collection right from the beginning of the course so that the relevant information is at hand as and when needed; this habit will also come in handy during later stages of education.

The schools will have to buy a hard copy of the Economic Survey for the latest year. You will notice that information relating to the Indian Economy is updated in the Economic Survey. It is necessary for the students to familiarise themselves with such reports and work on relevant activities. The statistical tables available as Appendix in the Economic Survey would be immensely helpful in understanding various issues.

While discussing a particular issue, discussion of the numerical information about the issue is inevitable. For instance, when we talk of growth rates — overall growth rates and growth of different sectors — though it may be necessary for the learners to have a rough idea about the trends in growth rates, they may also be encouraged to learn the process involved in reaching the level of growth and factors contributing to the trend rather than mere reproduction of tabular data of growth rate.

You will notice numbered boxes in all chapters. These boxes supplement the information given in the text. Through these boxes, an attempt has been made to lend a humane touch and, thus, bring the issue under discussion closer to real life. However, these boxes, as also ‘Work These Out’ activities, are not meant for examination/evaluation purposes.

Besides the relatively conventional ‘Exercises’, each chapter has ‘Suggested Additional Activities’ at the end and ‘Work This/These Out’ as part of the text; the more elaborate of these can be treated as projects. Teachers need to encourage the learners to explore beyond the text while attempting these activities.

Understandably, Information Technology facilities may not be available in all the schools, however, it is important to take note that various information relating to the Indian economy are available on the Internet. Students need to be introduced to the Internet and encouraged
to access the websites of the various government departments to get the required information. For instance, the details relating to poverty are published by the Planning Commission. Students should know that the Planning Commission of the Government of India has a website in which various reports relating to different aspects of India, including poverty, are available in the form of reports. Since it may not always be possible to procure such reports in hard copy, students and teachers may attempt to download such reports from websites and use them in the classroom.

The reports such as Economic Surveys of the last 10 years are available on the website: http://www.budgetindia.nic.in. Many organisations change their website addresses. In case a website given in this book is not accessible, kindly search those websites through search engines such as GOOGLE (www.google.co.in).

For the first time, each chapter has been briefly summed up in the ‘Recap’ to facilitate learning. Also, please take note that sources for all tables have not been given with the table as these tables were sourced from various research materials which have been covered under ‘References’ for each chapter.

We wish to reiterate the fact that the prime objective of this course on Indian economy is to introduce the basic macro issues of the Indian economy to the student community and to initiate a well-informed debate on our economy. We also stress that collaborative learning is an important aspect of this course, hence the involvement of students as well as teachers in collecting information on the Indian economy from other sources is necessary and such collected information should be used as important inputs for both teaching as well as learning about the Indian economy.

You can send your queries and feedback relating to any part of this book to the following address.

- Indicators of Human Development 189  
- Development Strategies — an Appraisal 190

GLOSSARY 198-206

xiii
Constitution of India

Part IV A (Article 51 A)

Fundamental Duties

It shall be the duty of every citizen of India —

(a) to abide by the Constitution and respect its ideals and institutions, the National Flag and the National Anthem;
(b) to cherish and follow the noble ideals which inspired our national struggle for freedom;
(c) to uphold and protect the sovereignty, unity and integrity of India;
(d) to defend the country and render national service when called upon to do so;
(e) to promote harmony and the spirit of common brotherhood amongst all the people of India transcending religious, linguistic and regional or sectional diversities; to renounce practices derogatory to the dignity of women;
(f) to value and preserve the rich heritage of our composite culture;
(g) to protect and improve the natural environment including forests, lakes, rivers, wildlife and to have compassion for living creatures;
(h) to develop the scientific temper, humanism and the spirit of inquiry and reform;
(i) to safeguard public property and to abjure violence;
(j) to strive towards excellence in all spheres of individual and collective activity so that the nation constantly rises to higher levels of endeavour and achievement;
*(k) who is a parent or guardian, to provide opportunities for education to his child or, as the case may be, ward between the age of six and fourteen years.

Note: The Article 51A containing Fundamental Duties was inserted by the Constitution (42nd Amendment) Act, 1976 (with effect from 3 January 1977).
*(k) was inserted by the Constitution (86th Amendment) Act, 2002 (with effect from 1 April 2010).
