# ICSE Board Class VIII Geography Sample Paper - 1

Time: 2 hrs Total Marks: 80

#### **GENERAL INSTRUCTIONS**

- 1. Answers to this Paper must be written on the paper provided separately.
- 2. You will not be allowed to write during the first 15 minutes.
- 3. The time given at the head of this Paper is the time allowed for writing the answers.
- 4. Attempt all questions from Section A and Section B
- 5. The intended marks for questions or parts of questions are given in brackets [].

#### **SECTION A**

## **QUESTION 1**

Fill in the Blanks: [10]
i) The Arctic Circle passes through the northern part of
ii) Superfast highways in Germany are known as
iii) The Baltic states include Estonia, Latvia and
<b>iv)</b> When the dew point temperature is above the freezing point of o°C, takes place in the form of tiny droplets of water.
v) The winds do not blow in the same path and get deflected due to the
vi) Theprotects the Earth by not allowing all the radiation from the Sun
from reaching the Earth's surface.
vii) A large group of stars forming a pattern is known as a
viii) ThePlains is the greatest continuous lowlands in the world.
ix)is the leading country in the production of milk products in Europe.
x) Thetype of climate is found in Central Europe, Eastern Europe and
Russia.
Russia.
QUESTION 2
Pickthecorrectanswerfrom the options: [5]
i) Which of the following statements is not true?
a) Stars make different patterns in the night sky, which are known as
constellations.
b) The Sun is the biggest star in our Universe.
c) Stars have light of their own.

**d)** There are millions of stars in our Solar System.

Statewhether true or false. [5]  i) The Alps are old foldmountains. (True/False)	**\ TA71-:-1-	of the fellowing is not an element of eactle and
