Dissolution of Partnership Firm

5

LEARNING OBJECTIVES

After studying this chapter you will be able to :

- *State the meaning of dissolution of partnership firm;*
- *Differentiate between dissolution of partnership and dissolution of a partnership firm;*
- *Describe the various modes of dissolution of the partnership firm;*
- *Explain the rules relating to the settlement of claims among all partners;*
- *Prepare Realisation Account;*

You have learnt about the reconstitution of a partnership firm which takes place on account of admission, retirement or death of a partner. In such a situation while the existing partnership is dissolved, the firm may continue under the same name if the partners so decide. In other words, it results in the dissolution of a partnership but not that of the firm. According to Section 39 of the partnership Act 1932, the dissolution of partnership between all the partners of a firm is called the dissolution of the firm. That means the Act recognises the difference in the breaking of relationship between all the partners of a firm and between some of the partners; and it is the breaking or discontinuance of relationship between all the partners which is termed as the dissolution of partnership firm. This brings an end to the existence of firm, and no business is transacted after dissolution except the activities related to closing of the firm as the affairs of the firm are to be wound up by selling firm's assets and paying its liabilities and discharging the claims of the partners.

5.1 Dissolution of Partnership

As stated earlier dissolution of partnership changes the existing relationship between partners but the firm may continue its business as before. The dissolution of partnership may take place in any of the following ways:

- (1) Change in existing profit sharing ratio among partners;
- (2) Admission of a new partner;

- (3) Retirement of a partner;
- (4) Death of a partner;
- (5) Insolvency of a partner;
- (6) Completion of the venture, if partnership is formed for that; and
- (7) Expiry of the period of partnership, if partnership is for a specific period of time;

5.2 Dissolution of a Firm

Dissolution of a partnership firm may take place without the intervention of court or by the order of a court, in any of the ways specified later in this section. It may be noted that dissolution of the firm necessarily brings in dissolution of the partnership.

Dissolution of a firm takes place in any of the following ways:

1. *Dissolution by Agreement*: A firm is dissolved :
 - (a) with the consent of all the partners or
 - (b) in accordance with a contract between the partners.
2. *Compulsory Dissolution*: A firm is dissolved compulsorily in the following cases:
 - (a) when all the partners or all but one partner, become insolvent, rendering them incompetent to sign a contract;
 - (b) when the business of the firm becomes illegal; or
 - (c) when some event has taken place which makes it unlawful for the partners to carry on the business of the firm in partnership, e.g., when a partner who is a citizen of a country becomes an alien enemy because of the declaration of war with his country and India.
3. *On the happening of certain contingencies*: Subject to contract between the partners, a firm is dissolved :
 - (a) if constituted for a fixed term, by the expiry of that term;
 - (b) if constituted to carry out one or more ventures, by the completion thereof;
 - (c) by the death of a partner;
 - (d) by the adjudication of a partner as an insolvent.
4. *Dissolution by Notice*: In case of partnership at will, the firm may be dissolved if any one of the partners gives a notice in writing to the other partners, signifying his intention of seeking dissolution of the firm.
5. *Dissolution by Court*: At the suit of a partner, the court may order a partnership firm to be dissolved on any of the following grounds:
 - (a) when a partner becomes insane;
 - (b) when a partner becomes permanently incapable of performing his duties as a partner;
 - (c) when a partner is guilty of misconduct which is likely to adversely affect the business of the firm;

- (d) when a partner persistently commits breach of partnership agreement;
- (e) when a partner has transferred the whole of his interest in the firm to a third party;
- (f) when the business of the firm cannot be carried on except at a loss; or
- (g) when, on any ground, the court regards dissolution to be just and equitable.

Distinction between Dissolution of Partnership and Dissolution of Firm

<i>Basis</i>	<i>Dissolution of Partnership</i>	<i>Dissolution of Firm</i>
1. Termination of business	The business is not terminated.	The business of the firm is closed.
2. Settlement of assets and liabilities	Assets and liabilities are revalued and new balance sheet is drawn.	Assets are sold and liabilities are paid-off.
3. Court's intervention	Court does not intervene because partnership is dissolved by mutual agreement.	A firm can be dissolved by the court's order.
4. Economic relationship	Economic relationship between the partners continues though in a changed form.	Economic relationship between the partners comes to an end.
5. Closure of books	Does not require because the business is not terminated.	The books of account are closed.
6. Other dissolution	It may or may not involve dissolution of the firm.	It necessarily involves dissolution of partnership.

Test your Understanding – I

State giving reasons, which of the following statements are true or false:

1. Dissolution of a partnership is different from dissolution of a firm,
2. A partnership is dissolved when there is a death of a partner,
3. A firm is dissolved when all partners give consent to it.
4. A firm is compulsorily dissolved when a partner decide to retire.
5. Dissolution of a firm necessarily involves dissolution of partnership.
6. A firm is compulsorily dissolved when all partners or when all except one partner become involent.
7. Court can order a firm to be dissolved when a partner becomes insane.
8. Dissolution of partnership can not take place without intervention of the court.

5.3 Settlement of Accounts

In case of dissolution of a firm, the firm ceases to conduct business and has to settle its accounts. For this purpose, it disposes off all its assets for satisfying all the claims against it. In this context it should be noted that, subject to agreement among the partners, the following rules as provided in Section 48 of the Partnership Act 1932 shall apply.

(a) *Treatment of Losses*

Losses, including deficiencies of capital, shall be paid :

- (i) first out of profits,
- (ii) next out of capital of partners, and
- (iii) lastly, if necessary, by the partners individually in their profits sharing ratio.

(b) *Application of Assets*

The assets of the firm, including any sum contributed by the partners to make up deficiencies of capital, shall be applied in the following manner and order:

- (i) In paying the debts of the firm to the third parties;
- (ii) In paying each partner proportionately what is due to him/her from the firm for advances as distinguished from capital (i.e. partner's loan);
- (iii) In paying to each partner proportionately what is due to him on account of capital; and
- (iv) the residue, if any, shall be divided among the partners in their profit sharing ratio.

Thus, the amount realised from assets along with contribution from partners, if required, shall be utilised first to pay off the outside liabilities of the firm such as creditors, loans, bank overdraft, bill payables, etc. (it may be noted that secured loans have precedence over the unsecured loans); the balance should be applied to repay loans and advances made by the partners to the firm. (in case the balance amount is not adequate enough to pay off such loans and advances, they are to be paid proportionately); and surplus, if any is to be utilised in settlement of the capital account balances, after adjusting all profits and losses.

Private Debts and Firm's Debts: Where both the debts of the firm and private debts of a partner co-exist, the following rules, as stated in Section 49 of the Act, shall apply.

- (a) The property of the firm shall be applied first in the payment of debts of the firm and then the surplus, if any, shall be divided among the partners as per their claims, which can be utilised for payment of their private liabilities.
- (b) The private property of any partner shall be applied first in payment of his private debts and the surplus, if any, may be utilised for payment of the firm's debts, in case the firm's liabilities exceed the firm's assets.

It may be noted that the private property of the partner does not include the personal properties of his wife and children. Thus, if the assets of the firm are not adequate enough to pay off firm's liabilities, the partners have to contribute out of their net private assets (private assets minus private liabilities).

Inability of a Partner to Contribute Towards Deficiency

In the context of settlement of accounts among the partners there is still another important aspect to be noted, i.e., when a partner is unable to contribute towards the deficiency of his capital account (the account finally showing a debit balance), he/she is said to be insolvent, and the sum not recoverable is treated as capital loss for the firm. In the absence of any agreement, to the contrary, such a capital loss is to be borne by the remaining solvent partners in accordance with the principle laid down in Garner vs. Murray case, which states that the solvent partners have to bear such loss in the ratio of their capitals as on the date of dissolution. However, the accounting treatment relating to dissolution of partnership on account of insolvency of partners is not being taken up at this stage.

5.4 Accounting Treatment

When the firm is dissolved, its books of account are to be closed and the profit or loss arising on realisation of its assets and discharge of liabilities is to be computed. For this purpose, a Realisation Account is prepared to ascertain the net effect (profit or loss) of realisation of assets and payment of liabilities which may be is transferred to partner's capital accounts in their profit sharing ratio. Hence, all assets (other than cash in hand bank balance and fictitious assets, if any), and all external liabilities are transferred to this account. It also records the sale of assets, and payment of liabilities and realisation expenses. The balance in this account is termed as profit or loss on realisation which is transferred to partners' capital accounts in their profit sharing ratio (see figure 5.1)

1. For transfer of assets

All asset accounts excluding cash, bank and the fictitious assets, if any are closed by transfer to the debit of Realisation Account at their book values. It may be noted that sundry debtors are transferred at gross value and the provision for doubtful debts is transferred to the credit side of Realisation Account along with liabilities. The same thing will apply to fixed assets, if provision for depreciation account is maintained.

14. For payment of loans due to partners

Partner's Loan A/c Dr.
To Bank A/c

15. For settlement of partners' accounts

If the partner's capital account shows a debit balance, he brings in the necessary cash for which the entry will be:

Bank A/c Dr.
To Partner's Capital A/c

The balance is paid to partners whose capital accounts show a credit balance and the following entry is recorded.

Partners' Capitals A/cs (individually) Dr.
To Bank A/c

It may be noted that the aggregate amount finally payable to the partners must equal to the amount available in bank and cash accounts. Thus, all accounts of a firm are closed in case of dissolution.

Summary

- Dissolution of Partnership Firm** : The dissolution of a firm implies the discontinuance of partnership business and separation of economic relations between the partners. In the case of a dissolution of a firm, the firm closes its business altogether and realises all its assets and pays all its liabilities. The payment is made to the creditors first out of the assets realised and, if necessary, next out of the contributions made by the partners in their profit sharing ratio. When all accounts are settled and the final payment is made to the partners for the amounts due to them, the books of the firm are closed.
- Dissolution of Partnership** : A partnership gets terminated in case of admission, retirement death, etc. of a partner. This does not necessarily involve dissolution of the firm.
- Realisation Account** : The Realisation Account is prepared to record the transactions relating to sale and realisation of assets and settlement of creditors. Any profit or loss arising out of this process is shared by partners' in their profit sharing ratio. Partners' accounts are also settled and the Cash or Bank account is closed.
