Even the biggest trees begin life as tiny seeds. Read about how the little acorn grew big.

**Little by Little**

“Little by little,” an acorn said,
As it slowly sank in its mossy bed;
“I am improving every day,
Hidden deep in the earth away.”
Little by little each day it grew,
Little by little it sipped the dew.

Downward it sent out a thread-like root
Up in the air sprang a tiny shoot;
Day by day, and year by year,
Little by little the leaves appear,
And the slender branches spread far and wide
Till the mighty oak is the forest’s pride.

THE ENORMOUS TURNIP

Once upon a time, an old man planted some turnip seeds.

The turnip seeds grew. The turnip seeds grew and grew.

“I want to pull up the enormous turnip,” said the old man.

The old man pulled and pulled. But he could not pull up the enormous turnip.

An old woman came.

“I want to pull up that enormous turnip,” said the old man.

“I will help you,” said the old woman. The old man and the old woman pulled and pulled. But they could not pull up the enormous turnip.

A boy came.

“We want to pull up that enormous turnip,” said the old woman. "I will help you," said the boy.
The old man and the old woman and the boy pulled and pulled. But they could not pull up the enormous turnip.

A girl came. “We want to pull up that enormous turnip,” said the boy. “I will help you,” said the girl.

The old man and the old woman and the boy and the girl pulled and pulled. UP came the enormous turnip.

“We will help you to eat the enormous turnip,” said the old woman and the boy and the girl.

And they did!

THemes

- Plants, trees, vegetables
- Growth
- The importance of trees and plants in our lives.

SUGGESTIONS FOR CLASSROOM TEACHING

- Read the poem aloud so that children appreciate the beauty of the words and phrases. Let children recite the poem.
- Help children with the materials for the plant growing activity. You can use blotting paper, damp cotton wool or muslin cloth placed on a plate.
- Discuss the importance of plants and trees and all the things we get from them. Encourage children to help you make a list on the blackboard.
- You can also emphasise how plants help to keep the air fresh and clean.
- Let the class talk about the cutting of trees around where they live. Let them imagine a world without trees (Where will the birds go? etc.).
- The story must be read out for enjoyment. In telling the story the imagination of the child should be so raised that he actively participates, is ready to enjoy the text and is certain that success will follow.
- A story with repetitions is always loved by children and is found to be more useful in dramatisation. The children can use their own words to make a new sentence. This language experience has more life and meaning.
- Tell the class why vegetables are good for us. You could ask the children to bring one vegetable each to the class. This can help them in the writing activity.
- Encourage children to guess the meanings of difficult words, before you explain them.
