

## My Favourite Subject Maths Essay For Class 2

- My favourite subject is Maths as I love to play with numbers and solve mathematical problems.
- Maths gives me a lot of satisfaction and boosts my energy and thinking capacity while studying.
- I love the number game and can solve problems for hours at a stretch without getting bored.
- My Maths teacher also teaches us various tricks to solve mathematical sums accurately and with speed.
- The best part about Maths is that I don't need to memorise or mug up everything, like a parrot, as done for other subjects.
- Maths is a very interesting subject and does not require retaining a lot of information in my mind.
- Among all arithmetical exercises, I love solving addition, subtraction, multiplication and division problems.
- The more I practice, the better I become in solving various arithmetical questions.
- It is a captivating subject and plays an important role in our daily lives.
- Finally, Maths is also a scoring subject and with proper practice, it becomes easier to score good marks in it.
