

My Mother Essay for Kids

Mother is the most influential person in the life of every individual. She is a very hardworking person who holds the honourable place next to the Almighty. She plays a crucial role in the holistic development of her child and attends to the basic demands of her family. The beauty of a mother-child relationship is that her love and sacrifice knows no bounds. She is like a guiding star, teacher and best friend who always stands rock solid beside her child and family under all circumstances.

My mother manages each and everything in the house and always puts her best foot forward to take care of me and other members of the family. Despite being a working woman, she cooks the most delicious dishes for the whole family daily. She stays awake whenever I'm not keeping well and gives me company during my exams. In my opinion, she is the most beautiful person in the entire world and looks after the welfare of the entire family. She imparts moral values and ethics to me and shows me the righteous path of life. I love my mother very much and pray to the Almighty to always bless her with good health and happiness.
