1. From your everyday experiences, write a short proposal on how you can conserve water.

2. What are dams and how do they help us in conserving and managing water?

3. Explain about Narmada Bachao Andolan or Save Narmada Movement.

4. Basic safety precautions to be taken during floods.

5. Based on the information given below classify each of the situations as ‘suffering from water scarcity’ or ‘not suffering from water scarcity’.
   (a) Region with high annual rainfall.
   (b) Region having high annual rainfall and large population.
   (c) Region having high annual rainfall but water is highly polluted.
   (d) Region having low rainfall and low population

6. What are the main causes of water scarcity?

7. Discuss how rainwater harvesting in semi-arid regions of Rajasthan is carried out.

8. Compare the advantages and disadvantages of multi-purpose river projects.

10. “Urbanisation has added to water scarcity.” Support the statement with Arguments.

11. “Water harvesting system is an effective measure to reduce the problem of water scarcity.” Justify the statement.

12. Give the sources of freshwater in India.

13. Explain the need for rainwater harvesting in India. How is it useful? Explain the mechanism with a diagram.

14. Is it possible that an area or region may have ample water resources but is still facing water scarcity?

15. What are the advantages of building dams? Mention 4 points.

16. Mention the states, where the practice of ‘rooftop water harvesting’ are largely practised?
   a. Rajasthan
   (b) Assam
   (c) Madhya Pradesh
   (d) Kerala

17. Mention the disadvantages of building large dams. Mention 4 points.

18. Analyse the impact of water scarcity.

19. Jawaharlal Nehru proudly proclaimed dams as the 'temples of modern India'. Explain.

20. Name two techniques of rooftop water harvesting.
