## Topic covered:

## - Fundamentals of Mathematics (Session-1)

## Daily Practice Problems

1. Which of the following is not a set?
a. The collection of great people of the world
b. The collection of all boys of age greater than 10 years
c. The collection of all letters of the word 'LEARNING'
d. The collection of questions of the topic 'SET THEORY'
2. Which of the following is a set?
a. The collection of all strong boys in a class
b. The collection of all short people in a colony
c. The collection of letters of the word 'CORONA'
d. The collection of difficult topics in Maths
3. Which of the following is an empty set?
a. $\{\phi\}$
b. $\{0\}$
c. $\phi$
d. $\{x: x$ is a non-real number $\}$
4. The collection of pet animals is
a. a null set
b. a finite set
c. an infinite set
d. not a set
5. Which of the following is a null set?
a. $\quad\left\{x: x\right.$ is a real number and $\left.x^{2}-1=0\right\}$
b. $\left\{x: x\right.$ is a real number and $\left.x^{2}+1=0\right\}$
c. $\left\{x: x\right.$ is a real number and $\left.x^{2}-9=0\right\}$
d. $\left\{x: x\right.$ is a real number and $\left.x^{2}=5 x+6\right\}$
6. Which of the following is an infinite set?
a. The set of human beings on earth
b. The set of water drops in a glass of water
c. The set of trees in a forest
d. The set of all prime numbers

## BYJU'S Home Learning Program

7. If $\phi$ denotes the empty set, then which of the following is correct
a. $\phi \in \phi$
b. $\phi \in\{\phi\}$
c. $\{\phi\} \in\{\phi\}$
d. $0 \in \phi$
8. If $A=\{1,2,2,1,3,4,3,4,3\}$ then $n(A)=$
a. 0
b. 8
c. 9
d. 4
9. If $A=\{x: x$ is a letter in the word ' QUARANTINE' $\}$, then the cardinality of $A$ is
a. 5
b. 6
c. 7
d. 8
10. The roster form of the set $\left\{x: x\right.$ is a real number and $\left.x^{3}=3 x^{2}-2 x\right\}$
a. $\{1,2\}$
b. $\{0,1,2\}$
c. $\{1,2, \varnothing\}$
d. $\{0, \emptyset, 1,2,3\}$

## ANSWER KEY

| Question <br> No. | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Correct <br> Answer | (a) | (c) | (c) | (d) | (b) | (d) | (b) | (d) | (d) | (b) |

## BYJU'S Home Learning Program <br> SOLUTIONS

## Answer 1:

Collection of things with an adjective such as beautiful, brave, ambitious, tall, fat etc is not a set. So clearly the collection of great people of the world is not a set

## Answer 2 :

As explained in the question 1 , option c is correct.

## Answer 3 :

Empty set is indicated by $\phi$ or $\}$ but not $\{\phi\}$. So, option c is correct.

## Answer 4 :

Pet: adjective, so not a set.

## Answer 5 :

Option (a): $x^{2}-1=0 \Rightarrow x= \pm 1$
Option (b): $x^{2}+1=0$ has no real solutions $\Rightarrow$ It is null set.
Option (c): $x^{2}-9=0 \Rightarrow x= \pm 3$
Option (d): $x^{2}-5 x-6=0 \Rightarrow x=6,-1$

## Answer 6:

Option (a): It is having countable number of elements.
Option (b): If we are pouring water drop by drop into glass after sometime an accountable finite number of droplets, the glass will be filled. So, it is finite set.
Option (c): In a particular forest the number of trees is always finite.
Option (d): Clearly set of prime numbers is infinitely many. So, it is infinite set.

## Answer 7 :

Option (a): $\phi$ is not the element of $\phi$. So, it is wrong.
Option (b): $\phi$ is an element of $\{\phi\}$. So, it is correct. Option (c): $\{\phi\}$ is not the element of $\{\phi\}$. So, it is wrong. Option (d): 0 is not the element of $\phi$. So, it is wrong.

## Answer 8 :

$$
A=\{1,2,3,4\} \Rightarrow n(A)=4
$$

## Answer 9 :

$$
A=\{A, E, I, N, T, Q, R, U\} \Rightarrow n(A)=8
$$

## BYJU'S Home Learning Program

Answer 10 :

$$
\begin{aligned}
& x^{3}-3 x^{2}+2 x=0 \\
& \Rightarrow x\left(x^{2}-3 x+2\right)=0 \\
& \Rightarrow x(x-1)(x-2)=0 \Rightarrow x=\{0,1,2\} \\
& \therefore \text { Roster form }=\{0,1,2\}
\end{aligned}
$$
