(Dr Sunil Magar)
Director
Maharashtra State Bureau of Textbook Production and Curriculum Research, Pune.
We have introduced English language in Standard One through simple language and variety of activities. We have focused on developing interest and confidence in English language among the children.

(1) Give the students maximum practice of the rhymes and songs with rhythm and actions and proper pronunciation, throughout the year.

(2) Give practice of the greetings, requests, commands and simple instructions for conversation according to the situations in pair or group work.

(3) Prepare various types of teaching aids and models to enrich children’s vocabulary and give visual exposure to them as well.

(4) Encourage children to use simple words, phrases, expressions in English inside and outside the classroom regularly.

(5) Help children to develop their reading and writing skills through preparatory activities.

(6) Conduct various types of activities and language games throughout the year for reinforcement of the content they have learnt.

(7) Revise all the activities at the end of each unit.

(8) Use e-learning material to develop language skills.

(9) Make maximum use of simple and easy English in and around the classroom. Mother tongue of the children can be used if necessary.

(10) Use simple instructions while teaching.
There are plenty of illustrations and activities in this book. The activities are quite interesting and easy. They will motivate children to think independently. You are expected to make use of these as often as possible.

Please make sure to follow these guidelines.

1. Encourage children to speak in English.
2. Please make sure to repeat the activities that children like and enjoy.
3. Please do not focus on pointing out children’s mistakes.
4. It is alright if they do not answer in complete sentences. Please encourage them by accepting their answers in one or two words in their home language or non-verbal responses.
5. Do not expect them to write spellings of the words at this stage or to learn them by heart. Maximum exposure to the whole words will help children in learning new words happily.

The following are the activities given in the textbook.

**Poems**

Most of the poems can be enacted and sung by children. The actions in the illustrations are guidelines to help you. You should recite/sing each and every line of the poem clearly and slowly first, then children may follow you line by line. Children will learn these poems well by repetition. You should use the pictures to chat with children about the poems so that they understand the themes of the poems.

**Stories**

Listening to a story, reading and then enacting it form a significant part of the process of language learning.

It helps in developing vocabulary, building confidence to speak in English. Children thoroughly enjoy participating in the performance of stories and dialogues. It helps them to construct and say short sentences in English. You need to create opportunities for children to perform in front of their own class, the school assembly or the visitors and guests.

**Picture Reading**

There are pictures which will help you to use and revise words, phrases, sentences and dialogues.
**Picture Story**

You can chat with the children with the help of the pictures in the story and make sure that they understand it well. You may use the pictures to encourage children to say the dialogues and narration in English repeatedly. You can dramatize the picture-stories by forming groups of children. Children enjoy these and so you can repeat this activity as many times as you can. Various types of puppets can be used to make the story interesting.

**Conversations / Dialogues**

You need to explain the theme of the dialogue to children, with the help of the pictures in the book. You can also build dialogues based on different situations in the classroom. (for example : May I? I like to, I don’t like to) You may ask children to form pairs or groups and encourage them to practise.

A variety of dialogues included in the textbook will be helpful to you while children put in effort to speak in English in the classroom. The themes of the dialogues are simple and appropriate for their age group. They include themes such as-greeting someone, polite requests, seeking information etc. You need to see that children use these dialogues in their day-to-day conversation in the school.

**Vocabulary Enrichment**

You should use pictures, stories, picture-stories to enrich children’s vocabulary. The words used in the textbook are from children’s immediate surroundings. Please be sure to prepare and keep flash cards ready for the whole academic year.

Avoid giving emphasis on spellings of words. Children should read every word as a whole word. Sight reading of these words should be practised regularly.

**Listen and act**

During this activity, children are expected to comprehend simple instructions given in English and act accordingly. You need to give practice of these activities again and again to achieve the objective. Gradually and after sufficient practice, children should be encouraged to give simple instructions to each other instead of the teacher.
**Listen, repeat and speak**

There are several examples included in the book to encourage children to speak about themselves about their likes, dislikes, personal needs etc. in simple and short sentences. You should gather each and every child’s personal information (for example: names of their family members, names of their friends, their likes and dislikes etc.). You also need to make sure that every child is able to give this basic information about herself/himself in simple sentences.

**Look and say**

These activities are designed to help children to learn to read and prepare them for writing.

**Flash cards**

Flash cards are fun and help in learning and revising new vocabulary and phrases.

**Reading time**

The activities like ‘word basket’ are designed to develop phonemic awareness in the learners. Here the learners are expected to develop the ability to hear, identify and associate the sounds with the letters. The goal of these phonemic awareness activities is to enable the beginning readers to decode new words by sounding them out or by blending the sound–letter patterns.

**Tracing and writing**

The development of handwriting skills (letter formation, sizing, spacing, alignment, etc.) begins with being able to copy simple shapes. Children who are able to copy basic prewriting shapes will be able to copy significantly more letters. The learners should be encouraged to trace the letters in four line format so that they understand the dimensions of the letters.

In this book, specific pronunciations of ए, ऐ, ओ, ऑ, अ respectively.

The lion got up. He got very angry. He caught the little mouse in his paw. He said angrily, “You naughty mouse, how dare you disturb me? Now see, how I punish you. I will eat you.”
The mouse was afraid. He started trembling.

He pleaded, “O lion, the king of jungle, I am really sorry. Please forgive me. Please let me go. I will help you some day.”

The lion laughed and said, “Oh really? you little mouse, how can you help me? That’s so funny! Anyway go, get away from here.” Then he set the mouse free.

“Thank you friend, thank you so much.” said the mouse and ran away quickly.

A few days later, the lion was caught in a hunter’s net. He was roaring loudly. The mouse heard it and ran to the lion. He saw the lion caught in the net. He called his friends.
