

# **CBSE Class 7 Syllabus for Social and Political Life** 2023-24

### DEMOCRACY AND EQUALITY

#### Rationale

Democracy and Equality are the key ideas to be engaged with this year. The effort is to introduce the learner to certain core concepts, such as equality, dignity, rule of law etc that influence Democracy as a political system. The role of the Constitution as a document that provides the guiding framework to function in a democratic manner is emphasised. This section deals with making the link between democracy and how it manifests itself in institutional systems in a concrete and live manner through case studies and real experiences. The objective is not to represent democracy as a fixed idea or system, but one that is changing and evolving. The learner is introduced to a wide range of institutions- the government, the bureaucracy and civil society organizations like the Media so that she can develop a broad understanding of the relationship between the State and Citizens.

Equality as a value is explored in some detail, where its relationship with democracy is highlighted and the challenges or questions it raises on inequities and hierarchies that exist at present in society is also discussed. An analysis of everyday experiences in the domain of gender enable the learner to understand how these are related to the creation of differences that are discriminatory in nature.

#### Objectives

The specific objectives of the course, where it is not clear from the rationale of the approach, are indicated beside the themes to be taught in the course.
