

When Bholu came with his camera, all he saw was the footprints of these animals.

Question: 1

Can you match the animals with their footprints?

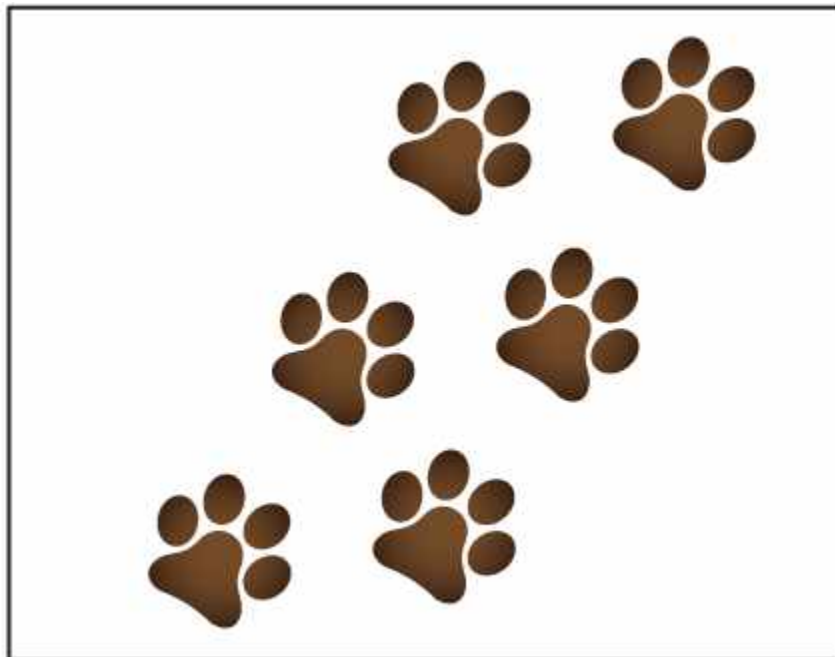

Answer:

Yes, we can match the animals with their footprints.

Question: 2

Draw the footprint of a dog in the box.

Question: 3

Roohi made two different traces of the same bowl.

(a) How did Roohi keep the bowl to get two different traces from it?

Answer:

Roohi traced the bowl by using its brim and base, keeping it in two different positions.

(b) Look for other things like Roohi's bowl, which can give many different traces.

Answer:

The other things which give different traces are cups, glass, plates etc.
