

It's winter break and Saba gets to go shopping!  
She has ₹100 to spend. Let's help her plan her  
spending and saving. Cut and paste the stickers  
where you think they belong.

## THINGS TO BUY RIGHT NOW

Clue: These are the things that Saba needs.

## THINGS TO SAVE FOR

₹25

Crayons

₹10

Teddy Bear

₹20

New Dress

₹40

Tiffin Box

₹20

Pencils

₹5

Eraser

₹5

Pizza

₹30

## Thinking Questions

- ◆ Which items do you think Saba should spend on later, after she's saved up some money? Why?
- ◆ Number these factors in decreasing order of importance:
  - ◆ The price of the item
  - ◆ The time it will take to save money
  - ◆ How soon Saba might need the item

Clue: Which of these will you think about **FIRST** when sorting the given items? What will you think of next?
- ◆ Do you think we need to think about how important an item is when we're sorting it? Why/why not?

## Sharing Question

- ◆ What do you think happens when people choose not to save money?
