General Knowledge | Reading & Writing | Math

Hello young learners!

I am Mila from Disney.BYJU'S Early Learn App, where I share all my adventures in Ordinary County!

Do you know that I have a secret? Not even my brother, Ezra, knows about it!

I am also a superhero who goes by the name **Kid Inc.** I wear a badge that glows and alerts me whenever there is any trouble!

But when I am back to being Mila, I read books, explore the world, and do my homework, just like you! Would you like to help me finish it?

You can also join Miss Mala, Miss Meridiem, and Officer Michael for other fun learning activities!

Let's go!

Mila explains Music

Music needs no introduction for us. We listen to and enjoy different songs almost every day. Music is one of the most popular forms of performing arts and can be found in almost every culture. “Food for the soul” is a common phrase for music. It has the power to make people feel better. It's a form of art that anyone can enjoy, and people can feel its positive effects every time.

Music is played on different occasions. It's performed during weddings, festivals, and other events.

Music has four basic features: rhythm, melody, harmony, and form. The length of musical sounds is referred to as rhythm. Melody is a series of different sounds in a piece of music. Harmony happens when more than one tone is played or sung at the same time. The form is how rhythm, melody, and harmony are put together.

There is a wide variety of musical styles. Popular music is any music that has a large number of fans. Most popular music is shorter and easier to understand. People often listen to popular music on the radio or purchase recordings of it to listen to at home.

Rock, country, hip-hop, rap, blues, jazz, and world music are some types of popular music. Unlike popular music, classical music is harder to understand.

Hindustani and Carnatic are two kinds of Indian classical music that came from South Asia and have now reached every part of the world. Almost every place in India has its own folk music that represents its culture. From lively bhangra in Punjab to soulful Lavani in Maharashtra, all contribute to India's extraordinary folk music history.
