General Knowledge | Reading & Writing Activities | Maths Exercises

Hello young learners!

I am Mila from the Disney.BYJU'S Early Learn App, where I share all my adventures in Ordinary County!

Do you know that I have a secret? Not even my brother, Ezra, knows about it!

I am a superhero who goes by the name Kid Inc. I wear a badge that glows and alerts me whenever there is any trouble!

But when I am back to being Mila, I read books, explore the world and do my homework, just like you! Would you like to help me finish it?

You can also join Miss Mala, Miss Meridiem and Officer Michael for more fun learning activities!

Let's go!

Mila Explains Collage

Collage

Collages are a lot of fun and are enjoyed by all—from children to grown-ups. Glueing things like photos, images or even fabric pieces together to create a collage is not new to us. We have either done it ourselves or have seen someone else do it. However, this art of collage has more to it than just glueing things together.

Collage is both an art form and a way to make art. Pieces of different things, like photos, cloth, paper and ribbons, are put together and stuck on a surface like paper or canvas to make a collage.

Collage has a long history. Long back, around the 12th century, Chinese and Japanese people used to glue colourful papers to various objects and seal them using **lacquer** to make them last longer. When this art reached **mediaeval** Europe, they started adding shells, gemstones, as well. By the 18th century, it had become a popular **pastime**. These objects were used for decoration.

Lacquer (noun) - A liquid that is put on a surface like metal or wood to make it hard and shiny.

Mediaeval (adjective) - Connected with the Middle Ages (about AD 1000 to AD 1450)

Pastime (noun) - Something that people do when they are not working

Pablo Picasso's work in 1912 named 'Still-Life with Chair-Caning' is considered the first example of collage in fine arts. He used a printed cloth and a rope in this painting. Later, he started using newspaper cutouts in his art. This showed everyone that everyday things and objects have their own special place in art.

Collage has helped everyone understand that anyone can make art, and it can come from unexpected places. When the collage-makers experiment with various materials, styles and colours, it helps them conceive fresh concepts that are difficult to explain in words. It also helps people understand common elements among things that seem unrelated. Overall, collages are a super fun way to express yourself—whether you are an artist or not!
